Chapter 1 The .NET Compact Framework *1*

Understanding the .NET Compact Framework *2*
What's Missing from NETCF? *14*
Differences Between eVB and VB .NET *19*
Working Between .NET and .NETCF *28*
Using Compiler Directives *29*
Summary *31*

Chapter 2 Smart Device Extensions *33*

Languages Supported by SDE *34*
SDE Within the VS .NET IDE *34*
Step-by-Step Tutorial: Hello World.NET *61*
Summary *74*

Chapter 3 Designing an Effective Interface *75*

Pocket PC Design Standards *75*
Larry Roof's Design Rules *82*
Step-by-Step Tutorial: Panel-Based Interface *96*
Windows Forms *103*
The Code Behind a Form *106*
Working with Forms *113*
Working with Dialog Boxes *118*
Step-by-Step Tutorial: Building a Custom Dialog Box *129*
Summary *134*

Chapter 4 NETCF Controls *137*

The Button Control *137*
The CheckBox Control *139*
The ComboBox Control *141*
The ContextMenu Control *144*
The DataGrid Control *146*
The DomainUpDown Control *149*
The HScrollBar Control *152*
The ImageList Control *154*
The InputPanel Control *155*
The Label Control *157*
The ListBox Control *158*
The ListView Control *161*
The MainMenu Control *166*
The NumericUpDown Control *167*
The OpenFileDialog Control *168*
The Panel Control *170*
The PictureBox Control *172*
The ProgressBar Control *174*
The RadioButton Control *176*
The SaveFileDialog Control *178*
The StatusBar Control *181*
The TabControl Control *182*
The TextBox Control *183*
The Timer Control *185*
The ToolBar Control *186*
The TrackBar Control *186*
The TreeView Control *188*
The VScrollBar Control *191*
Summary *193*

Chapter 5 Creating Controls *195*

Types of Custom Controls *195*
Creating an Inherited Control *199*
Step-by-Step Tutorial: Creating a Hybrid TextBox *222*
Creating an Owner-Drawn Control *235*
Step-by-Step Tutorial: Creating an Owner-Drawn Control *238*
Creating a Component *245*
Starting a Component *245*
Adding Design-Time Support *247*
Summary *247*

Chapter 6 Menus, Toolbars, and Status Bars *249*

Building Menus *250*
Building Context-Sensitive Menus *265*
Building ToolBars *272*
Building Status Bars *281*
Step-by-Step Tutorial: Menus and Toolbars *283*
Summary *296*

Chapter 7 Graphics *297*

Some Basic Knowledge *297*
Okay, Let's Draw Something *300*
Step-by-Step Tutorial: Creating a New Button *306*
Working with Images *315*
Step-by-Step Tutorial: Displaying a Simple Image *320*
Step-by-Step Tutorial: Scrolling an Image *323*
Summary *328*

Chapter 8 Files and Directories *329*

System.IO Namespace *330*
Managing Directories *332*
Managing Files *348*
Working with Files *352*
Step-by-Step Tutorial: Building a Text File Demo *360*
Step-by-Step Tutorial: Building a Binary File Demo *366*
Summary *371*

Chapter 9 Introduction to ADO.NET *373*

System.Data Namespace *374*
Data Providers *376*
The Connection Classes *380*
The Command Classes *383*
The DataReader Classes *387*
The DataAdapter Classes *389*
The DataSet Class *392*
The DataTable Class *398*
The DataRow Class *404*
The DataColumn Class *405*
The DataView Class *407*
Step-by-Step Tutorial: Working with ADO.NET *409*
Summary *421*

Chapter 10 Data Binding *423*

Binding to Controls *423*
Moving Between Items *432*
Adding an Item *434*
Deleting an Item *434*
Canceling an Edit in Progress *434*
Validating Input *435*
Creating a Master-Detail Form *436*
Permanently Saving Data *440*
Working with the BindingContext Object *441*
Step-by-Step Tutorial: Working with Bound Controls *443*
Summary *450*

Chapter 11 Introduction to SQL Server CE *453*

What Can You Do with SQL CE? *453*
SQL CE Architecture *455*
Installing SQL Server CE 2.0 ..... *456*
Getting Started *476*
Licensing SQL Server CE *480*
Summary *481*

Chapter 12 Working with Server-Based Data *483*

My Data, Get My Data *483*
Summary *508*

Chapter 13 Working with Device-Based Data *511*

Covering the Database Basics *511*
Remote Data Access *522*
Step-by-Step Tutorial: Beyond Anonymous *528*
Merge Replication *538*
RDA or Replication, That Is the Question *544*
Summary *545*

Chapter 14 Working with XML *547*

Basic XML *547*
Step-by-Step Tutorial: Creating a Configuration Reader *563*
DOM Navigation of Your Documents *568*
Working with XML Data Using a DataSet *571*

Looking at Data Schemas 573
Using XML Serialization 575
Summary 576

Chapter 15 Mobile Networking 577

Working with the HTTP Protocol 578
Working with the TCP Objects 592
Step-by-Step Tutorial: Working with TCP 606
Working with the IrDA Objects 619
Step-by-Step Tutorial: Working with IrDA 624
Summary 630

Chapter 16 XML Web Services 633

Understanding XML Web Services 634
Web Service Limitations with NETCF 644
Creating an XML Web Service 644
Creating a Web Service Client 653
Passing Data from XML Web Services 656
Asynchronous Calls to Web Services 670
Step-by-Step Tutorial: Building a Web Service Client 674
Summary 687

Chapter 17 Working with Unmanaged Code 689

Examining DllImport 690
Reasons to Use Unmanaged Code 691
Applied Examples 692
Step-by-Step Tutorial: Creating an Unmanaged DLL 717
Summary 734

Chapter 18 Working with POOM 735

The Pocket Outlook Object Model 735
Accessing POOM from NETCF 736
Working with Tasks 740
Step-by-Step Tutorial: Working with Tasks 747
Working with Contacts 754
Step-by-Step Tutorial: Working with Contacts 761
Working with Appointments 769
Step-by-Step Tutorial: Working with Appointments 776
Summary 784

Chapter 19 Building Help Systems *785*

A Pocket PC Help System *785*
Constructing Help Systems *789*
Step-By-Step Tutorial: Building a Help File *796*
Implementing Help Files *802*
Summary *808*

Chapter 20 Application Settings *809*

Developing the Foundation *809*
Working with Settings in an INI File *812*
Working with Settings in an XML File *818*
Working with Settings in the Registry *824*
Summary *826*

Chapter 21 Creating Setups for Your Applications *827*

Setup Fundamentals *827*
Building Cab Files *836*
Step-by-Step Tutorial: Examining a Basic Cab Build *855*
Step-by-Step Tutorial: Building a Custom Installation *859*
A Note on Testing Setups *867*
Summary *868*

Chapter 22 Producing Reports *869*

Producing HTML Reports *870*
Examining the HTML Reporting Sample *870*
The HTMLViewer Alternative Approach *876*
Summary of Producing HTML Reports *879*
Producing Printed Reports *879*
Producing Printed Reports with PrinterCE.NetCF *880*
Working with the PrinterCE Object *884*
Summary of Printing with PrinterCE.NetCF *891*
Printing Reports with the Mobile Printing Toolkit *891*
Summary of Printing with the Mobile Printing Toolkit *900*
Pocket PC Report Generation with Report CE *900*
Summary of Printing with Report CE *906*
Summary *906*

Appendix A Setting Up Your Development Environment: A Quick Step-Through *907*

Install a Decent Operating System *907*
Install Visual Studio .NET 2003 ..... *908*
Install ActiveSync *908*
Install SQL Server and SQL Server CE *908*
Install the eMbedded Tools *909*
Summary *910*

Appendix B Working with the Emulator *911*

Launching the Emulator *911*
Running the Emulator Without a Network Connection *913*
Configuring the Emulator *914*
Moving Files to the Emulator *920*

Appendix C Resources *925*

Newsgroups *925*
Web Sites *926*
Developer Tools *930*
Training *935*

Appendix D Sample Applications *937*

Unpacking the Sample Applications *937*
Obtaining Sample Updates *937*
Loading a Sample Application *937*
Running a Sample Application *938*
Removing an Application *938*
Problems with a Sample Application *939*

Appendix E Error Handling *941*

Handling Errors Visual Basic Style *941*
The Try, Catch, Finally Statements *946*
Catching Exceptions *947*
Handling Exceptions *948*
Creating an Exception "Safety Net" *949*

Obtaining Detailed Error Information 951
Tracking Exceptions 951
Causing Exceptions to Occur 954
Summary 956

Appendix F Custom Controls in C# 957

Step-by-Step Tutorial: Creating a New Button 957
Summary 972

Index 973
